The response received 12/30/2002 has been entered and claims 1-23 are currently pending in this application.

All rejections of record of claims 1-23 are maintained.

5 The arguments presented focus on the claimed limitation in claim 1(d) regarding purification of the product with either reduction or oxidation which is not specifically taught by the primary reference, Fache. And the other cited references are not properly combinable with Fache for various reasons such as the
10 different syntheses generate different impurities which would then require different purification steps.

It is the examiner's position that Fache discusses purification in column 3, the cyclohexane solution is reintroduced into a cyclohexane oxidation operation. The
15 catalyst is recovered and recycled in a further oxidation reaction of cyclohexane to adipic acid. In claim 15 the compounds distilled are recycled in a further oxidation reaction. This would imply unreacted starting material, cyclohexane, in the product mixture can then be oxidized to form the desired product.
20 All the secondary references teach various methods of oxidizing the product mixture to produce more adipic acid and/or more pure adipic acid. The addition of a method step known to purify a product mixture with the expected results would have been obvious. Employing activated carbon for separating or purifying
25 is old in this art.

Applicants' failure to consider the references together is inappropriate in view of the fact that the rejection was made under 35 U.S.C. § 103, on the basis of what the combined teachings of the references would have suggested to one of
5 ordinary skill in the relevant art, and not under 35 U.S.C. § 102, on the basis of anticipation by any of the individual references.

THIS ACTION IS MADE FINAL. Applicant is reminded of the
10 extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is
15 not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the
20 statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
